

What is claimed is:

1. An insecticidal composition comprising a compound having an inhibitory effect on acyl CoA:cholesterol acyltransferase activity or a salt thereof as an effective ingredient.

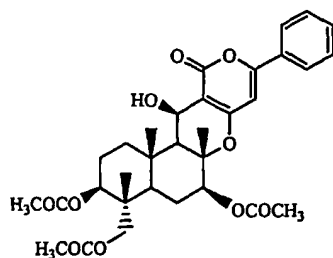

2. The insecticidal composition according to claim 1, wherein the compound having the inhibitory effect on acyl CoA:cholesterol acyltransferase activity is one or more selected from the group consisting of compounds represented by the following Formulas 1 to 11.

[Formula 1]

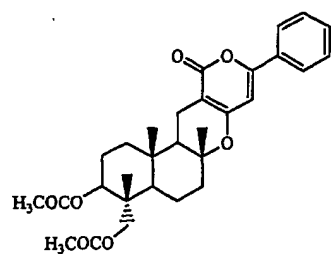

15

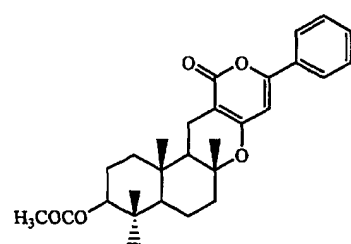

[Formula 2]

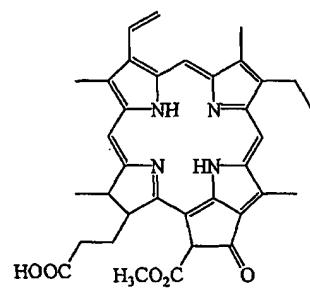

[Formula 3]

[Formula 4]

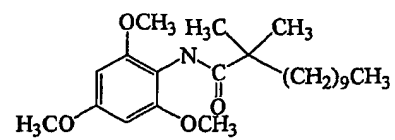

[Formula 5]

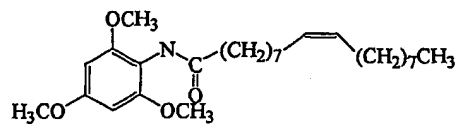

5

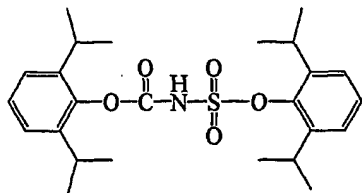

[Formula 6]

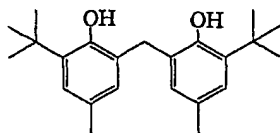

[Formula 7]

[Formula 8]

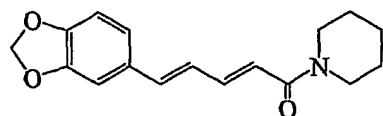

[Formula 9]

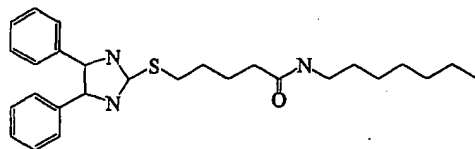

5

[Formula 10]

[Formula 11]

10 3. The insecticidal composition according to claim 2,
 wherein the compounds of the Formulas 1 to 4 are prepared
 by a process comprising:

culturing *Penicillium griseofulvum* F1959;
extracting the cultured cells with ethyl acetate;
and
chromatographing the resulting extract.
